#### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1, 2, 5-6, 14-17 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest selecting a suitable search engine from a plurality of search engines, each of said search engines having a respective dedicated language and a URL; on the basis of said URL, retrieving a search engine template matching said URL from a search engine template storage; translating said query words of native language into said query words of a dedicated language defined in said retrieved search engine template; searching a dedicated language corresponding to said URL from history records based on said URL in the event no search engine template matching said URL is retrieved from said search engine template storage; determining positions of said query word parameters by using

linguistic characteristics of parameter values and in combination of detailed claim elements in independent claims 1, and similar to independent claims 14 and 16.

Claims 7-13 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest (c) selecting a suitable search engine from a plurality of search engines, each of said search engines having a respective dedicated language; (d) performing the following steps in the event said removed prefix is a redirect prefix; (d1) sending a request containing said URL to said selected search engine and receiving a web page as a response; (d2) adding a translation prefix before URLs that need said query words and a redirect prefix before other URLs in said web page, so as to form a new web page; (e) performing the following steps in the event said removed prefix is a translation prefix; (e1) translating said query words of user's native language in parameters of said URL into said query words of a dedicated language of said selected search engine; (e2) replacing said query words of user's native language in parameters of said URL with said query words of said dedicated language; (e3) adding said redirect prefix before said URL; (e4) generating a new web page, embedding said URL and a Script program in said web page, said Script program enabling a client which receives said new web page to perform a step of automatically sending another original query request based on said URL embedded in said web page, as detailed in independent claims 7 and similar to claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
